# Play safe.

## Playflex™ Rubber Safety Tiles

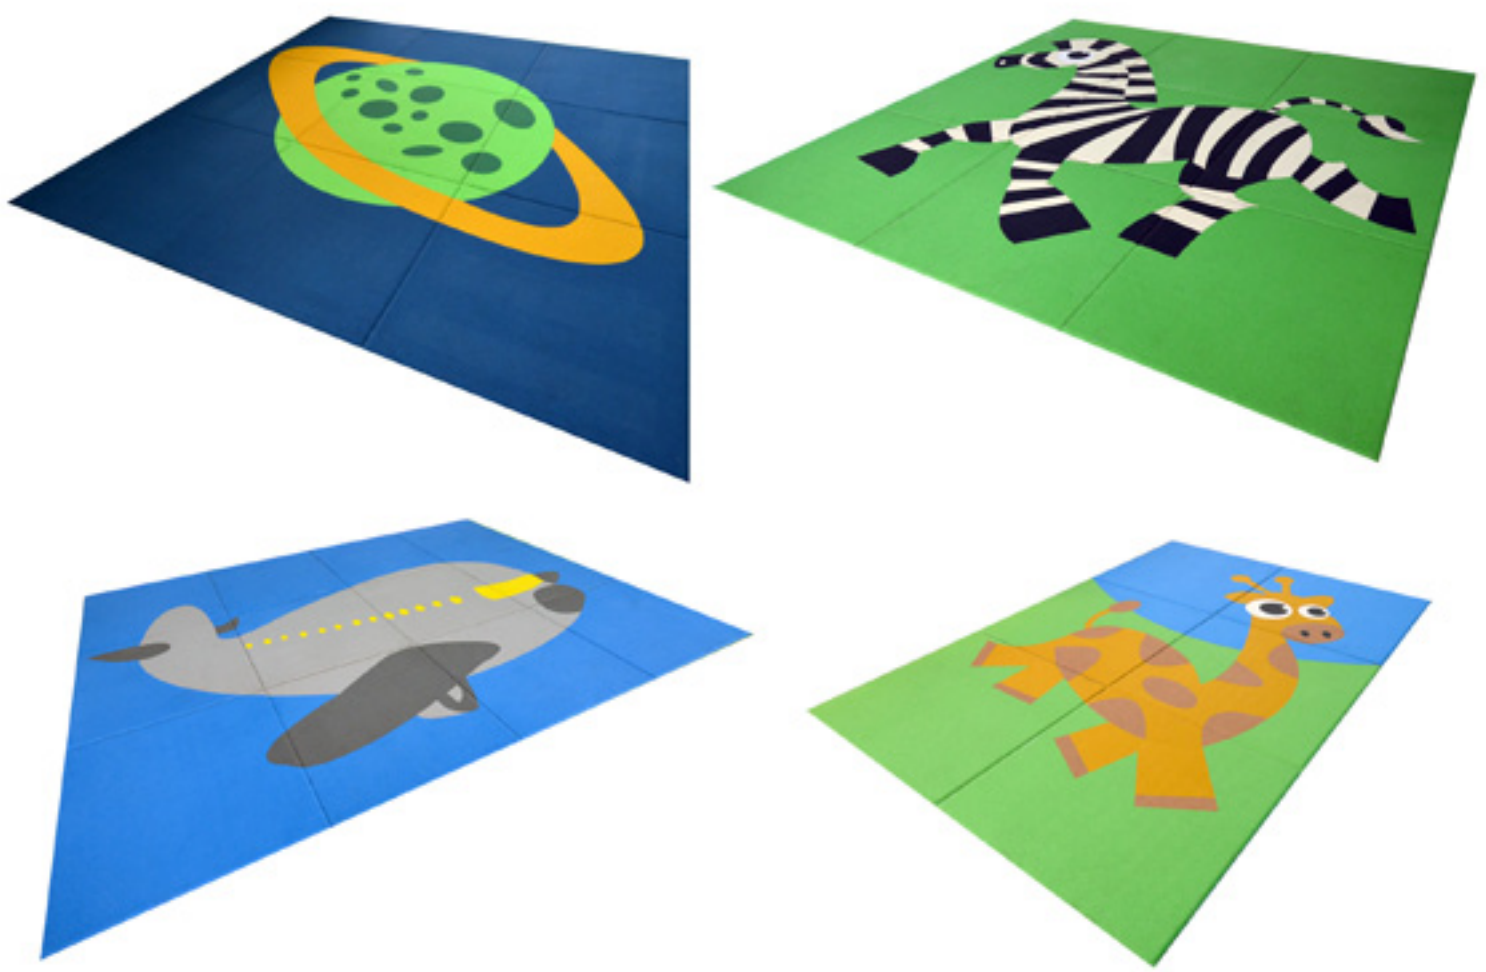

- Safety surfacing to cushion falls and reduce the risk of injuries
- Prefabricated modular rubber tiles supplied from 15mm to 105mm in thickness
- Tested for Critical Fall Height to European and American Standards
- Cost effective with different styles for different budgets
  - Basic
  - Basic+
  - Galaxy
  - Royal
  - Designer
  - Jazz
- Different Models
  - CBI Base for hard sub-surface
    - \*\* Improved Critical Fall Heights\*\*
  - NMP Base for hard or soft sub-surface
    - installed using plastic connectors

## Playflex™ Graphics

- Playflex™ Graphics are supplied as modular tiles
- Each tile is custom-made based on an electronic drawing, and precision cut to within a fraction of a millimeter
- Complexity of installation removed because Rehouse labels and organizes each individual tile
- The installation process is as simple as following our instructions, and installing tiles in sequence
